Revenue Trend

Revenue grew sharply from Dec '24 till Feburary '25, a 2.9x increase over 2 months. A maximum revenue of **$1.27 million** was generated in **August '25** before taking a nose-dive May '26 onwards. **Pakistan** was the **top revenue generator** with **$4.3 million** worth of orders delivered within the past 2.5 years

Sales Performance

March is the strongest month historically, generating over **$2.62 million** in revenue followed closely by **April** at **$2.61 million**. Similarly, **Mondays** and **Wednesdays** are the busiest days operationally, generating approximately **$3.87 million** and **$3.84 million** in revenue respectively.

Customer Analysis

Churned customers (45.9%) account for the largest revenue share at $13.21 million, followed by **Active** (15.6%, $6.19 million) and **Lapsing** (16.8%, $5.57 million) customers while 21.7% have **never purchased**, pointing to a strong need for **Churned** customers retention.

Order Behavior

Most orders are placed on **Mondays** and **Wednesdays**, aligning with our sales trends together generating **$7.71 million** in revenue from **492 orders**.

Product & Category Analysis

Our **highest-priced products** ($1,400 to $1,800) sell the most, with nearly **7000 units sold** generating **$9.01 million in revenue**. Among these, Electronics is the top-performing category by units sold, operating at an **average discount of 8.73%**.

Recommendations

- **Focus win-back efforts** on **Churned customers at 45.9%** of the customer base and **$13.21 million in past revenue**, even a partial recovery here would have the biggest impact.
- Turn **"Never Purchased" leads (21.7%)** into first-time buyers with **targeted onboarding offers** or **first-purchase incentives**.
- Lean into **Mondays/Wednesdays** and **March/April** with **promotions, staffing, and inventory planning**, since these periods consistently drive the most revenue.
- Take a closer look at the **high-priced segment ($1,400–$1,800)**, especially Electronics **to see if the 8.73% discount is actually necessary** or if margins can be improved without losing volume.
- Dig into the **May '26 revenue drop** early to **catch the root cause** before it snowballs.
